

FULLY AUTOMATIC STRING THRUSTING MACHINE

High Precision. High Speed. Effortless Performance.

The **LUNEX Fully Automatic String Thrusting Machine** is engineered for modern garment manufacturing with advanced automation, silent operation, and superior efficiency. Designed for boxers, shorts, sportswear, jackets, hoodies, and elastic applications.

LX-AS909
MODEL

- **World-First Double Servo Technology**
Double servo motors for silent, high-precision performance.
- **Dual Operation Mode**
Supports both hand control and foot pedal operation.
- **Smart Humanized Design**
Computerized system with easy and safe operation.
- **High-Speed Performance**
Completes string thrusting in just 7-13 seconds.

2-Hole Pant - Cross Style
Suitable Hole Size: ≥ 8 mm

2-Hole Pant - Eyelet Type
Suitable Hole Size: ≥ 8 mm

2-Hole Pant - Flat Cord (No Twist)
Suitable Hole Size: ≥ 6 mm

Elastic Band Option
Suitable Hole Size: ≥ 5 mm

FULLY AUTOMATIC STRING THRUSTING MACHINE

LUNEX brings next-generation automation technology for garment manufacturers looking to improve productivity, reduce labor dependency, and achieve consistent quality output.

The machine is ideal for:

Boxers | Shorts | Sportswear | Hoodies | Jackets | Elastic Waistband Garments

PRODUCT HIGHLIGHTS

- **Multiple Cord Compatibility**
Compatible with tube cords, flat cords (non-twist), nylon cords, cotton cords, and elastic bands.
- **Smooth & Silent Operation**
Electrically operated with high-speed smooth functioning and minimal noise.
- **Adjustable Speed & Torque**
Allows adjustment of speed and torque boost according to production requirements.
- **Durable Industrial Construction**
Robust body structure designed for continuous industrial usage and long operational life.

Model	LX-AS909
Power Supply	220V / 1Ph / 50-60 Hz
Widen Device	Auto
Widen Size (Circumference)	Min. 59 cm to Max. 157 cm
Speed & Torque Boost	Adjustable
Net Weight	99 Kgs
Machine Dimension (W x L x H)	120 × 580 × 1250 mm

BUILT FOR SPEED. ENGINEERED FOR PRECISION.
