

INTELLIGENT WIRE CUTTING MACHINE

Smart Thread Trimming System

- The **LUNEX Intelligent Wire Cutting Machine** is designed to deliver fast, clean, and accurate thread trimming for modern garment manufacturing. Equipped with a high-performance suction system and precision cutting mechanism, it removes excess threads efficiently while keeping the workstation clean. Engineered for reliability and productivity, it is an ideal solution for apparel factories seeking consistent quality and improved production efficiency.

DUAL USE & FIXABLE

- Precision Thread Cutting
- Clean Garment Finishing
- Increased Production Efficiency
- Reduced Manual Labour
- Low Maintenance
- Energy Efficient
- Reliable Performance
- Long Service Life

KEY FEATURES

- **Digital Control Panel**
Easy-to-use digital interface for convenient operation and consistent machine performance.
- **Precision Cutting Assembly**
High-quality cutting blade ensures accurate and clean thread trimming with excellent durability.
- **High-Efficiency Brushless Motor**
Provides stable operation, low noise, energy efficiency, and a longer service life.
- **Powerful Suction System**
Instantly collects trimmed threads to maintain a clean workstation and improve garment finishing quality.
- **Flexible Installation**
Designed for easy installation on either side of the sewing workstation, adapting to various production layouts.

Model	LX-TC500
Voltage	110V / 220V
Power	500W
Motor Speed	2800 RPM
Frequency	50Hz–60Hz

BUILT FOR SPEED. ENGINEERED FOR PRECISION.
